

**Quick Guide to
Pest Solutions**

**Residential
Single Family**

Premium Residential Service (the ultimate protection)

Eliminates and guards against:

**Rodents (mice and rats), Ants (both nuisance and carpenter ants)
Termites, Spiders, Silverfish, Fleas, Clothes Moths, Carpet Beetles
Hornets and Wasps, Dooryard Pests, Food Storage Pests**

(monthly residential customers also have use of our vaccum fumigation chamber at 423 S Horton St, Seattle for carpets, antiques and household goods at no additional fee)

The low monthly fee includes additional trips if necessary to control pests. The initial service is performed inside and outside your home. Following routine service is performed to the outside of your residence. It is performed inside upon request.

There are a number of advantages to monthly inspections and service. The monthly frequency allows less chemicals to be used and materials that break down quickly. They have low impact on the environment and a high safety margin. It is also very cost-effective. Our high volume routing allows us to treat a block of customers in the same area without making custom trips.

We do not require long-term contracts for service. There is a six month minimum and a 30-day cancellation requirement.

Quotations can often be made on the telephone. For service or to obtain a quotation just give us a call.
