

**Quick Guide to  
Pest Solutions**

**Rats in and around  
COMMERCIAL LOCATIONS**

**THE FIRST STEP IS AN EVALUATION**

Paratex will gladly survey your location to determine the pest prevention program that is appropriate for you.

**THE SECOND STEP IS A PROPOSAL**

We take into account your type of establishment, government regulations, cost-effectiveness and safety. We can provide a simple routine service to full AIB Standards and documentation. Service frequencies can range from weekly to quarterly.

There is no cost or obligation for our recommendation and proposal and no requirement of long-term contracts. [Call for an estimate on 1-800-542 1234](tel:1-800-542-1234) or send an email to [info@paratex.com](mailto:info@paratex.com).

For further information on our commercial programs contact Darrell Beetham, Director of Commercial Sales, (206) 227-9417. **Rodent control in a commercial establishment is not a “do-it-yourself situation.”** It’s time for professional help.
